Report of the Board of Directors

The Board of Directors is pleased to present Waterloo Investment Holdings Limited's ("Company" or "WIHL") 2020 Annual Report.

The Company produced net income of \$6.2 million in the year ended March 31, 2020, compared with net income of \$6.7 million in the year ended March 31, 2019. Total assets and shareholders' equity on March 31, 2020 amounted to \$526.1 million and \$437.6 million respectively, compared with \$528.7 million and \$431.6 million respectively, on March 31, 2019. Detailed commentary on the performance of the three operating divisions is provided below.

Hospitality Division

Prior to the onset of the COVID-19 pandemic, our performance was driven by a strong global economy and a robust travel market. The 2019/2020 season culminating in the high-season period of January to March was expected to be our strongest.

The impact of the COVID-19 pandemic on the global tourism industry has however been unprecedented. According to the United Nations World Tourism Organization the COVID-19 pandemic has resulted in a double digit decrease in international tourism in the last fiscal quarter (January – March), with arrivals in the month of March down by 57% worldwide. The Turks and Caicos Islands ('TCI') has not been immune to this.

Notwithstanding a strong first three quarters for the Group, the financial performance of the fourth quarter was very adversely affected by lower passenger arrivals and the subsequent closure of the airport. As a consequence, Turks and Caicos Collection ("TCC") reported a loss of \$0.8 million for the year ended March 31, 2020 versus a \$0.9 million loss in the prior year.

Despite the unfavorable financial performance, TCC continues to establish itself as a leading luxury brand in the TCI. For the second year running, Beach House was awarded the World Travel Award Leading Boutique Hotel, a testament to the strength of the management team and staff. Whilst, the three resorts located on the island of Providenciales (Alexandra Resort, Beach House and Blue Haven Resort) performed very well, Ambergris Cay produced an operational loss in its first year of operation.

Ambergris Cay has been well received in the travel market, as evidenced by coverage in several leading luxury travel publications. Moreover, the recent certification of the airport as an international port of entry will allow for direct flights without the requirement to clear customs and immigration on the main island of Providenciales. This will also create more opportunities in the private jet market.

The current uncertainty in the travel and tourism market brought about by the COVID-19 pandemic has already led to significant changes in the travel market. The need for flexibility has resulted in shorter booking windows, the removal of cancellation penalties and a heavy discounting of rates.

Nevertheless, the TCI and the TCC are well positioned once the market recovers. The TCI is comprised of low-density developments which allows for greater social distancing compared to other islands in the Caribbean, and as such provides a safe environment for guests.

Report of the Board of Directors

COVID 19

Significant, comprehensive actions have been taken to minimize the operational and financial impact of the COVID-19 pandemic including but not limited to: the suspension of hotel operations of 3 of the 4 hotels in the collection, furloughing of staff, reduction of operational expenses, rebooking of room revenue that has been cancelled since February 2020, and the suspension or deferral of all non-essential capital expenditure. Although the borders were reopened on July 22nd, strict travel requirements, reduced airfare, a weak global economy and the threat of the pandemic will continue to weigh heavily on the TCC.

Financial Services Division

British Caribbean Bank (“BCB” or “Bank”) produced a profit of \$2.9 million for the year ended March 31, 2020 compared with a profit of \$2.2 million in 2019. Net interest income performed in line with last fiscal year. Non-interest income increased due to fees charged for loan arrangements. Non-interest expenses remained in line with the previous fiscal year. No loan provision was deemed necessary.

Investments Division

The Investments Division produced a loss of \$3.1 million compared with a loss of \$2.7 million in the prior year. This increase of the loss was primarily due to increased assessment charges due on Ambergris Cay.

Loans decreased from \$104.4 million to \$96.9, firstly as a result of the sale of lots at the Emerald Point development in which we own a 25% stake of the syndicated loan; and secondly due to the receipt of \$3.3 million for the exiting of an option agreement inclusive of the sale of 3 parcels of land.

Blue Haven Marina

Blue Haven Marina was severely damaged by two hurricanes in September 2017 and has since only operated about 30% of its docks, with much reduced capacity for services such as power, water, sewage and telecommunications. Nonetheless, the Marina was able to provide important services to local operators, as it is an essential part of the local infrastructure. The Group has been considering various rebuilding options to be implemented in the next fiscal year, but the reluctance of the Government to acknowledge a license agreement to allow for the replacement to be imported under import duty exemption has delayed its replacement.

Beach restoration efforts at Emerald Point have commenced and are expected to be completed by summer 2020. These works will allow for the sale of additional lots in Emerald Point.

Report of the Board of Directors

Latin American Associates (“LAA”)

Although the global palm oil prices improved in the fiscal year ending March 31, 2020, the sold volumes decreased substantially. The net effect is that income from our investment in the LAA companies decreased to \$9.9 million from \$11.6 million last year. An additional \$0.1 million translation adjustment loss increased the Group’s share of Accumulated Other Comprehensive Loss to \$6.4 million from \$6.3 million at year-end 2019. Due to falling net income, the dividends were reduced from \$6.9 million to \$5.6 million.

Future Development and Outlook

Since March 2020, the spread of COVID-19 has impacted many local and international economies and disrupted businesses for an indefinite period. Measures taken to counteract the pandemic have resulted in an economic slowdown worldwide.

The extent of the impact of the COVID-19 pandemic on the operating performance and financial condition of the Group will depend on certain developments, including the duration and spread of the pandemic and the impact on the Group’s operations and finances, all of which are uncertain and cannot be predicted at this time.

Report of Independent Auditors

To the Board of Directors and Shareholders of Waterloo Investment Holdings Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Waterloo Investment Holdings Limited and its subsidiaries, which comprise the consolidated balance sheets as of March 31, 2020 and 2019, and the related consolidated statements of income, changes in shareholder's equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion in these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Report of Independent Auditors

Emphasis of Matter

We draw attention to Note 1 to the financial statements, Subsequent events, which states that the extent of the impact of the ongoing coronavirus pandemic on the operations and financial position of Waterloo Investment Holdings Limited and its subsidiaries in the future will depend on certain developments, including the duration and spread of the pandemic, all of which are uncertain and cannot be predicted at this point.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Waterloo Investment Holdings Limited and its subsidiaries as of March 31, 2020 and 2019, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Description of business

Introduction

Waterloo Investment Holdings Limited ("Company" or "WIHL") was incorporated in the British Virgin Islands on January 24, 2011. WIHL is a holding company with no independent business operations or assets other than its investment in its subsidiaries, associates, intercompany balances and holdings of cash and cash equivalents. WIHL's businesses are conducted through its subsidiaries.

The businesses of WIHL include (i) British Caribbean Bank Limited ("BCB" or "the Bank") which focuses on the provision of financial services and lending in the Turks and Caicos Islands ("TCI") and whose assets are principally comprised of loans that have a high concentration in asset backed lending to the tourism and property development sectors, (ii) the Hospitality Division which owns and operates resorts and related activities in TCI trading as the Turks and Caicos Collection, (iii) the Investments Division which holds certain other loans and assets principally related to tourism, property and infrastructure businesses, and (iv) an interest in certain Latin American associated companies more fully described below and in note 19.

Associates

The Group's equity investment in associates is comprised of:

(i) Investments in approximately 25 percent of Corporacion Iberoamericana Alimentaria, S.A., Tower Strategic, Ltd., Mesocafta International, S.A. and BVI International Holdings, Inc. (the "Latin American Associates"). The Latin American Associates own edible oil processing and distribution operations and palm seed plantations in Latin America and operate as producers and distributors of edible oils, margarine, industrial oils and animal feed.

(ii) Investment in 50 percent of Belize International Services Limited ("BISL") which until June 2013 provided shipping and company registry services to international clients. In June 2013, the Government of Belize ("GOB") unilaterally took control of the entire operations of BISL. Since June 2013, the Company has received no income from BISL (Note 19).

Subsequent events

The Group has evaluated subsequent events for recognition and disclosure through August 31, 2020, which is the date the financial statements were available to be issued.

Since March 2020, the spread of COVID-19 has impacted many local and international economies and disrupted businesses for an indefinite period. Measures taken to counteract the pandemic have resulted in an economic slowdown worldwide. These economic events are non-adjusting subsequent events and, accordingly, the financial position and results of operations of the Group at and for the year ended 31 March 2020 have not been adjusted to reflect their impact.

The extent of the impact of the COVID-19 pandemic on the operating performance and financial condition of the Group will depend on certain developments, including the duration and spread of the pandemic and the impact on the Group's operations and finances, all of which are uncertain and cannot be predicted at this time.

Note 2 - Summary of significant accounting policies

Basis of consolidated financial statements

The consolidated financial statements have been prepared in United States dollars ("US Dollars") in accordance with generally accepted accounting principles in the United States ("GAAP") and as described below. The preparation of consolidated financial statements in accordance with GAAP requires management to make extensive use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. These management estimates include, among others, an allowance for doubtful receivables, asset impairments, useful lives for depreciation and amortization, loss contingencies, and allowance for loan losses. Actual results could differ materially from those estimates.

Principles of consolidation

The consolidated financial statements incorporate the financial statements of WIHL and its subsidiaries ("the Group"). WIHL consolidates companies in which it owns more than fifty percent of the voting shares or companies in which it has a controlling interest. The results of subsidiary companies acquired or disposed of during the year are included in the consolidated financial statements from the effective date of acquisition up to the date of disposal. All significant intercompany balances and transactions have been eliminated in consolidation.

Loans and interest income recognition

Loans are stated at the principal amount outstanding, net of unearned income and allowance for loan losses. Interest income is recorded on an accrual basis. When either the collectability of principal or interest is considered doubtful, or payment of principal or interest is ninety days or more past due, loans are placed on non-accrual status and previously accrued but unpaid interest is charged against current year interest income, unless the amounts are in the process of collection. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for loan losses

The Group's consideration as to the adequacy of the allowance to provide for probable loan losses is based on a continuing review of the loan portfolio and includes, but is not limited to, consideration of the actual loan loss experience, the present and prospective condition of each borrower and its related industry, general economic conditions prevailing from time to time, and the estimated fair value of the related collateral. Loans are charged off against allowance for loan losses when the amounts are deemed to be uncollectible.

Under the Group's accounting policy for loan loss provisioning, the Group evaluates the probability of an impairment loss when a loan is classified as non-accrual. An

Notes to Consolidated Financial Statements

impairment loss is recognized and fully provided for if the recorded amount of the non-accrual loan exceeds the estimated fair value of the underlying collateral less costs to sell. The majority of the Group's loan portfolio is fully collateralized. Interest income on impaired loans is recognized only when payments are received and the Company considers that the loan will remain performing.

Management bases its estimate of specific loan loss provision on a comprehensive analysis of all loans, in particular all individual classified loans. In fiscal 2017, management decided that the Bank no longer required a hedge against inherent portfolio loss by maintaining an unallocated loss allowance of one percent of loans not adversely classified.

Investment loans

The Group classifies its interests in investment loans as held for sale or held for use at the time of purchase and reassesses this classification as of each balance sheet date. The investment loans are considered Level 3 in the fair value hierarchy due to the use of unobservable inputs to measure fair value. In the absence of an active market for the investment loans, fair value is measured using third-party appraisals of underlying collaterals and Level 3 pricing models based on information and assumptions that management believes are consistent with what market participants would use in a hypothetical transaction at the measurement date.

Investment loans are reviewed annually to determine whether impairment has occurred that is other than temporary. The Group considers various factors including the severity and likely duration of the impairment, the intent to hold an investment loan or the need to sell it before its anticipated recovery. If there is prevailing evidence that a reduction in fair value is other than temporary, the impairment is recognized in the income statement.

Leases

All leases are operating leases between Group companies, are immaterial, and the annual rentals are charged against income.

Currency translation

The reporting and functional currency of the Group is US dollars. The results of subsidiaries and associates, which account in a functional currency other than US dollars, are translated into US dollars at the average rate of exchange for the year. The assets and liabilities of subsidiaries and associates which account in a functional currency other than US dollars are translated into US dollars at the rate of exchange ruling at the balance sheet date. Unrealized translation gains or losses reported by the Company's associates are recognized as cumulative translation adjustments through other comprehensive income (loss) within shareholders' equity.

Gains and losses arising from currency transactions are included in the consolidated statements of income.

Notes to Consolidated Financial Statements

Associates

For investments in which the Group owns or controls more than twenty percent of the voting shares, and over which it exerts significant influence over operating and financial policies, the equity method of accounting is used in the consolidated financial statements. The investment in associates is shown in the consolidated balance sheets as the Group's proportion of the underlying net assets of these companies plus any goodwill attributable to the acquisitions less any write-off required for a permanent diminution in value. The consolidated statements of income include the Group's share of net income of associates.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, demand deposits and highly liquid instruments, with an original maturity of three months or less. As a result of the short-term maturity of these financial instruments, their carrying value is approximately equal to their fair market value.

Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation. Depreciation is provided to write off the cost of the assets over their estimated useful lives, using the straight-line method, over the following periods:

Buildings	life of building, not exceeding 50 years
Leasehold improvements	term of lease
Motor vehicles	4 years
Fixtures, fittings and office equipment	3 to 10 years

The carrying value of property, plant and equipment is evaluated periodically in relation to the operating performance and future cash flows of the underlying businesses. Where, in the opinion of the Group, an impairment in the value of property, plant and equipment has occurred, the amount of the impairment is recorded in the consolidated statements of income.

Repairs and maintenance costs are expensed as incurred. Gains and losses arising on the disposal of property, plant and equipment are included in the consolidated statements of income.

Financial risk management

Financial instruments which potentially subject the Group to concentrations of credit risk principally consist of cash, cash equivalents and due from banks and extensions of credit to customers. The Group places its cash, cash equivalents, and due from banks only with financial institutions with acceptable credit ratings and limits its credit exposure in respect of any one of these institutions.

The Group's portfolio credit risk is evaluated on a regular basis to ensure that concentrations of credit exposure do not result in unacceptable levels of risk. Credit limits, ongoing credit evaluations, and account-monitoring procedures are utilized to minimize the risk of loss.

Notes to Consolidated Financial Statements

The Bank invests part of its excess liquidity in investment grade marketable securities which it classifies as held to maturity. Investments in held-to-maturity debt securities are initially recorded at cost and thereafter measured at amortized cost. Unrealized holding gains and losses are not recorded. A financial asset is measured at amortized cost if both the following conditions are met:

1. The asset is held in a business model with the objective of holding assets to collect contractual cash flows, and
2. The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the outstanding principal.

Investments in market volatile ETFs are initially recorded at cost and then monthly marked to market. Unrealized holding gains and losses are recorded. Dividend income is included in non-interest income of the current period.

New and revised accounting standards

The Group adopts newly issued accounting standards and updates in the year stipulated for adoption to the extent they are relevant to the Group's operations. The Group may adopt a newly issued standard or update if early adoption is permitted. The effect of adoption, if material, is disclosed in the financial statements.

The Bank categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, Total Debt Service Ratio (TDSR), Loan to Value Ratio (LTV), credit documentation, security valuation, public information, and current economic trends, among other factors. The Bank analyzes loans individually by classifying the loans as to credit risk. This analysis is performed on an annual basis. The Bank uses the following definitions for risk ratings:

Special Mention: Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard: Loans classified as substandard are those loans that are over three and up to six months in arrears or overdraft accounts where interest charges have not been covered by deposits for three to less than six months.

Doubtful: Loans classified as doubtful are those loans that are over six and up to twelve months in arrears or overdraft accounts where interest charges have not been covered by deposits for six to less than twelve months.

Loss: Loans classified as loss are those loans that are over twelve months in arrears or overdraft accounts where interest charges have not been covered by deposits for twelve months or more.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass loans.

As of March 31, 2020, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

	Pass	Special mention	Sub-standard	Doubtful	Loss	Total
	\$m	\$m	\$m	\$m	\$m	\$m
Residential mortgage	21.8	2.1	-	-	-	23.9
Other consumer	0.2	-	-	-	-	0.2
Commercial - real estate	2.8	8.3	12.5	-	-	23.6
Commercial - other	16.2	-	-	-	-	16.2
	41.0	10.4	12.5	-	-	63.9

Notes to Consolidated Financial Statements

Individually impaired loans amounted to \$22.9 million (2019 - \$21.2 million). The Group considers all non-accrual loans as individually classified impaired loans.

The following table presents the recorded investment in non-accrual loans by class of loans:

At March 31	2020 \$m	2019 \$m
Residential mortgage	2.1	-
Other consumer	-	-
Commercial - real estate	20.8	21.2
Commercial - other	-	-
	22.9	21.2

The interest income which would have been recorded during the year ended March 31, 2020 had all non-accrual loans been current in accordance with their terms was approximately \$2.5 million (2019 - \$2.6 million).

The average amount of loans outstanding in the Financial Services Division, in which the Group considers there was a probability of a loss during the year ended March 31, 2020, was \$12.5 million (2019 - \$15.5 million). Interest is not recognized on any loan classified as non-accrual.

As a result of the nature of these financial instruments, the estimated fair market value of the Financial Services Division's loan portfolio is considered by the Group to approximate its carrying value. Loan loss provisioning is based on management's estimate of the recoverability of non-performing loans after allowing for the estimated net realizable value of collateral held.

At March 31, 2020, the Group had total loans outstanding to certain officers and employees of \$0.8 million (2019 - \$0.6 million) at preferential rates of interest varying between 5.0 percent and 6.0 percent per annum, repayable over varying periods not exceeding 15 years.

Changes in the allowance for loan losses were as follows:

Year ended March 31	2020 \$m	2019 \$m
At beginning of year	3.7	7.0
Provision charged to income	-	-
Write-offs	-	(3.3)
Loan loss recovery	-	-

Investment loans principally comprise secured loans where the borrowers have failed to comply with the terms and conditions of the respective loans and security agreements and documents.

These collateralized assets principally comprise development land or development land and buildings in the tourism, tourism related and hospitality business sectors. It is management's intention to hold the investment loan interests for the medium to long term in order to maximize the long-term realizable value of the investment loans.

Notes to Consolidated Financial Statements

Investment loans are carried net of provisions for loan losses which reflect fair value adjustments (Note 27).

As a result of the nature of these financial instruments, the estimated fair market value of the loan portfolio is considered by the Group to approximate its carrying value. Loan loss provisioning is based on management's estimate of the recoverability of non-performing loans after allowing for the estimated net realizable value of collateral held.

Changes in the provision for loan losses were as follows:

In 2018 the Financial Services Division purchased 19 condo units and vacant land to house staff. This year the Bank sold those assets to the Corporate Division.

Note 19 - Associates

The Group's equity investment in associates is comprised of:

(i) Investments in Latin American Associates which own edible oil processing and distribution operations and palm seed plantations in Latin America and operate as producers and distributors of edible oils, margarine, industrial oils and animal feed, in Costa Rica, Colombia, Panama, Nicaragua and Mexico. The share of net income amounted to \$9.9 million for the year ended March 31, 2020 (2019 - \$11.6 million). The share of unrealized translation loss amounted to \$0.1 million for the year ended March 31, 2020 (2019 - \$1.3 million) and is recognized as a cumulative translation adjustment through other comprehensive loss within shareholders' equity.

(ii) A non-controlling investment in 50 percent of Belize International Services Limited ("BISL") which provided shipping and company registry services to international clients.

Notes to Consolidated Financial Statements

BISL also provided financial and other services. The share of net income amounted to nil for the year ended March 31, 2020 (2019 - nil).

On June 10, 2013, the Government of Belize (“GOB”) announced its unilateral decision to assume control of the administration, operation and management of the International Business Companies Registry in Belize and the International Merchant Marine Registry of Belize (IMMARBE) with effect from June 11, 2013. BISL is the company that had been granted the right to operate and manage the two registries on behalf of the GOB until 2020 pursuant to a management services agreement entered into in 1993, which was extended in 2013 (the “Extension Agreement”). The other 50 percent of BISL is owned by the Panamanian law firm, Morgan & Morgan.

As a result of this action by the GOB, WIHL has not been able to include its associate share of the income of BISL for 2020 or 2019 in its income statement or its share of other fees normally generated by BISL (or for any periods since June 2013).

BISL brought a claim against the GOB in the Supreme Court of Belize in 2013 for breach of constitutional rights. The claim was later converted to a claim for breach of contractual rights and a trial was held in February 2016, which included testimony from valuation experts. On October 28, 2016 the Supreme Court dismissed BISL’s claim citing the GOB’s failure to comply with the Financial Orders, by not putting the contract extension out to tender, as the reason for its decision to declare the contract extension invalid. BISL appealed the decision to the Belize Court of Appeal and the case was heard on June 18 and 20, 2018. On March 15, 2019, the Court of Appeal dismissed its appeal and affirmed the earlier decision of the Belize Supreme Court. BISL appealed the Court of Appeal’s decision to the Caribbean Court of Justice (“CCJ”), which on June 30, 2020, found that GOB had acted unlawfully when it seized control of the entire operations of BISL in June 2013. The CCJ also found the Extension Agreement to be fully constitutional and legally binding and enforceable against GOB. The CCJ further found that GOB is liable to pay BISL significant damages and has remitted the matter to the Belize Supreme Court for the determination of the quantum of damages to be paid to BISL.

The investment in BISL is carried at historic cost plus the Group’s share of undistributed earnings at the time the GOB took the asset over.

Note 20 – Deposits – Financial Services

At March 31	2020 \$m	2019 \$m
Term deposits	56.3	63.0
Demand deposits	18.4	19.3
	74.7	82.3

The maturity distribution of term deposits was as follows:

At March 31	2020 \$m	2019 \$m
3 months or less	25.4	24.0
Over 3 and to 6 months	-	3.1
Over 6 and to 12 months	30.5	35.7
Deposits less than \$0.1 million	0.4	0.2
	56.3	63.0

Included in demand deposits at March 31, 2020 were \$17.0 million (2019 - \$15.8 million) of demand deposits denominated in US dollars, \$1.3 million (2019 - \$3.4 million) denominated in UK pounds sterling, and \$0.1 million (2019 - \$0.1 million) denominated in Canadian dollars. Included in term deposits at March 31, 2020 were \$41.6 million (2019 - \$45.1 million) of term deposits denominated in US dollars, \$14.7 million (2019 - \$17.9 million) denominated in UK pounds sterling, and nil (2019 - nil) denominated in Canadian dollars.

As a result of the short-term maturity of these financial instruments, their carrying value is considered by the Group to approximately equal their fair market value.

Note 21 – Current liabilities – Corporate

At March 31, 2020, WIHL had \$0.2 million in current liabilities (2019 - \$0.3 million), of which \$0.2 million is payable to Caribbean Investment Holdings Limited ("CIHL") as a result of consultancy fees incurred (Note 26).

Note 22 - Commitments, contingencies and regulatory matters

(i) The Group's loans primarily result from its Financial Services Division and its Investment Division and reflect a broad borrower base. There is a concentration by economic activity in the commercial real estate business sector. Credit limit, ongoing credit evaluations and account monitoring procedures are utilized to minimize the risk of loss. Substantially all of the Group's loans are fully collateralized.

(ii) The Bank has foreign exchange risk which arises from accepting foreign currency deposits, primarily with respect to UK pounds sterling. To manage its foreign exchange risk related to UK pounds sterling deposits, the Bank closely monitors the performance of UK pounds sterling and relies on its treasury management to eliminate any UK pounds sterling exposure at short notice to the extent possible.

(iii) The Bank is a party to financial instruments with off-balance sheet risks in the normal course of business to meet the financing needs of its customers. These financial instruments include callable bonds. In addition, the Bank also grants short-term credit facilities to customers for periods of up to twelve months generally to meet customers' working capital requirements. These facilities are repayable on demand and are subject to review at any time. In practice, such reviews are carried out at periodic intervals agreed with the customer. Outstanding callable bonds at March 31, 2020 amounted to nil (2019 – nil).

Since many of the commitments are expected to expire without being drawn upon in full, and because of the fluctuating aspect of the facilities, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral required by the Bank for the extension of credit is based on the Bank's credit evaluation of the counterparty. Collateral held varies, but may include cash deposits, accounts receivable, inventory, plant, equipment, income-producing commercial properties and land.

Standby letters of credit and financial guarantees written are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. The terms of such guarantees do not normally exceed more than one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank holds similar collateral to that held for the short-term facilities described above and such commitments are generally fully collateralized. Outstanding standby letters of credit and financial guarantees written at March 31, 2020 amounted to nil (2019 - nil).

(iv) At March 31, 2020, the Group is a defendant in a number of pending legal and other proceedings incidental to present and former operations. The Group does not expect the outcome of these proceedings, either individually or in the aggregate, to have a material adverse effect on the consolidated financial position of the Group.

(v) In the ordinary course of business, the Company's subsidiaries are subject to regulatory examinations, information gathering requests and enquiries. As a regulatory matter develops that may have a material effect, the Company and the relevant subsidiaries, in conjunction with outside counsel, evaluate the matter on an ongoing basis in light of potentially relevant factual and legal developments. These may include settlement discussions and rulings by courts, arbitrators or others. Based on current knowledge and discussions with independent legal counsel, management does not believe that the outcome of any regulatory matter that is unresolved at March 31, 2020 would have a material adverse effect on the financial position or liquidity of the Company or its subsidiaries.

Note 23 - Share capital

At March 31, 2019	495,504,000	248.1
At March 31, 2020	495,504,000	248.1

Treasury Shares

The movement of treasury shares, at cost, has been as follows:

	Number	\$m
At March 31, 2018	674,000	0.8
Purchased	488,145	0.1
At March 31, 2019	1,162,145	0.9
Purchased	176,000	0.1
At March 31, 2020	1,338,145	1.0

In fiscal year 2020, the Group purchased 176,000 Ordinary Shares, resulting in an increase of Ordinary Shares held in treasury to 1,338,145 (2019 – 1,162,145). Treasury shares are held in the balance sheet at a cost of \$1.0 million (2019 - \$0.9 million).

Note 24 - Concentrations of deposit and credit risk

The Group is potentially subject to financial instrument concentration of credit risk through its cash equivalents and credit extensions. The Group performs periodic evaluations of the relative credit standing of financial institutions it transacts with and places its cash and cash equivalents only with financial institutions with a high credit rating.

The Group has a credit risk concentrated in the tourism and real estate industries but does not foresee a material credit risk associated with individual credit extensions in these industries beyond what has already been prudently recognized and provided for in the financial statements. The Group monitors its risk concentration associated with credit extensions on a continuous basis in an effort to mitigate its exposure.

The Group has a concentration of deposit risk due to the existence of certain large individual client deposits. The Group manages the concentration risk by monitoring on a regular basis the distribution of maturities of its clients' deposits.

Note 25 – Regulatory capital requirements

The regulatory capital guidelines measure capital in relation to the credit and market risks of both off-balance sheet and on-balance sheet items by applying various risk weighting. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on BCB's financial position, results of operations, or liquidity. The following table sets forth the capital requirements and the actual ratios of BCB.

	Minimum Required	Actual 2020	Actual 2019
British Caribbean Bank Limited	11.0%	48.4%	42.3%

Note 26 - Related party transactions

Lord Ashcroft, KCMG PC is a controlling shareholder in WIHL and in CIHL.

- (i) During the year CIHL provided administrative and other services to WIHL. The aggregate fees charged by CIHL for the year ended March 31, 2020 amounted to \$1.0 million (2019 - \$1.0 million).
- (ii) The balance of unpaid fees due by WIHL to CIHL and subsidiaries at March 31, 2020 amounted to \$0.2 million (2019 - \$0.2 million).

Note 27 – Fair value of financial instruments

Fair value is the exchange price receivable for an asset or payable for transferring a liability in the most advantageous market for the asset or liability in an arms-length transaction between market participants on the measurement date using any of the following three levels of inputs:

Level 1 – Quoted prices for identical assets or liabilities in active markets that the Group has the ability to access on the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or other inputs that can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect the Group's evaluation of the assumptions that market participants would use in pricing an asset or liability.

The amounts reported in the balance sheets for cash and due from banks and interest-bearing deposits approximate fair value due to the short-term maturity of these instruments. The Group places its cash and cash equivalent deposits only with financial institutions with an acceptable credit rating.

Investments in held-to-maturity debt securities are initially recorded at cost and then recorded at amortized cost. Unrealized holding gains and losses are not recorded. Interest revenue is included in interest income of the current period.

Investments in market volatile ETF's are initially recorded at cost and then monthly marked to market. Unrealized holding gains and losses are recorded. Dividend income is included in non-interest income of the current period.

The carrying amounts of loans receivable, net of valuation allowances, are estimated to approximate fair value based on their respective interest rates, risk-related rate spreads and collateral consideration. These facilities are generally payable on demand and are subject to review at the discretion of the Group.

The fair value of investment loans is measured using third-party appraisals of underlying collaterals and Level 3 pricing models based on information and assumptions that management believes are consistent with what market participants would use in a hypothetical transaction at the measurement date, as described in Note 2 – Investment Loans.

The fair value of the Group's deposit liabilities approximates carrying values based on comparative rates offered by other banks for deposits of similar remaining maturities.

The carrying amount of long-term debt is a reasonable estimate of fair value based on the Group's incremental rates for equivalent types of financing arrangements.

Accrued expenses and other liabilities reflect current market conditions.

With regards to financial instruments with off-balance sheet risk, it is not practicable to estimate the fair value of future financing commitments. However, the terms and conditions reflected in acceptances and commitments for financing assistance are market-sensitive and are not materially different from those that would have been negotiated as of March 31, 2020.

In the opinion of the Group's management, all other financial instruments reflect current market conditions and their fair value are not expected to differ materially from carrying amounts.
